A Bunch of Flowers

There was once a lazy man who never cleaned his house or did the housework. Lots of things were in his living room and his bedroom. What's worse, he never brushed his teeth, and always wore dirty clothes. Many of his friends either laughed at him or tried to help him make a change, but he didn't care about what they said.

One day, a friend of his gave him a bunch of flowers. He held the white flowers in his hands and carefully looked at them. These fresh white flowers were so pretty that he decided to put them in a perfect place. "But where should I put the flowers?" he thought. As he tried to find the right place, he saw a vase on the shelf. The vase had been there too long, so it was very dirty. The man felt that the nice flowers didn't go well with the dirty vase, so he washed it carefully, added some water, and put the flowers in. But when he wanted to look for a good place to put his vase, he couldn't find somewhere clean. He looked at his messy table and decided that it was time for him to clean it up. After he put the flowers on the clean table, he looked at them happily. But when he looked around, he found that the table was the only clean place in his house. The dirty house became a sharp contrast against the clean table and the flowers. He then mopped the floor, threw away the trash and put everything in order.

After finishing all the cleaning, he was happy. He walked around the living room and felt proud of himself.

But when he saw a man with dirty face in dirty clothes standing in front of the mirror, he was shocked. He understood that he himself became the only dirty thing in this house, so he quickly went for a shower and put on a clean shirt.

When the friend who gave him the flowers came to visit him the next day, he couldn't believe his eyes. The man looked at the friend with a big smile and said, "You've given me the best gift ever in my life."

People are sometimes afraid of something or doing something. However, in some cases, if people are far too scared of some things or situations, we will call it “phobia.” Phobia has great influence on people’s lives.

There are different kinds of phobias making different people crazy. People with “claustrophobia” don’t feel comfortable when they are in a small room or space. But some people are scared of being with many people or in large open space. It is so-called “agoraphobia.” These are two common phobias.

However, there are some famous people with other strange phobias. A famous actor has nothing to fear in his movies, but he has a fear of eggs. We call it “ovophobia.” Don’t you think it is quite surprising? Another special case is “spectrophobia.” People with it hate to look at themselves in the mirror. And now, “nomophobia” is more and more common. Every time cellphones can’t work well or are out of order, people with this kind of phobia will get very sad or even quite angry. How about you? Do you have any phobia?
