五、閱讀測驗(每題 2 分, 共 10 分)

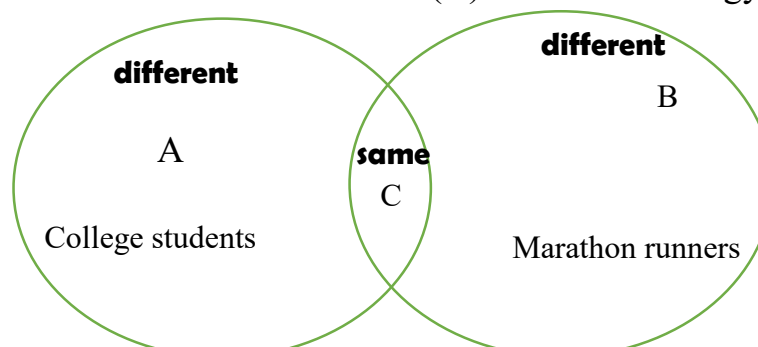

Kenya is home to a lot of great marathon runners. In fact, life is really hard for everyone in Kenya. College students in Kenya get up at five or six o'clock in the morning. Then they prepare breakfast for their family. After that, they walk for two or three hours to their colleges. They go home after school and cook dinner. They don't have much time for their studies or homework.

But a marathon runner's life is different. Marathon runners live in a training center. They get up at eight o'clock and have breakfast. Then they exercise in the gym. After that, they have a lot different classes in the afternoon. From four p.m. to five p.m., they jog around the training center. They don't have to worry about their lives. They can get a lot of things from the training center.

A lot of boys and girls jog every day, but only a small number of people in Kenya can be marathon runners. For a lot of people in Kenya, life is still really hard.
